> Staff training and support

GDPR Powered by AI.DATALIFT is the only integrated, scalable, end-to-end GDPR service combining consulting and delivery hosted in the Cloud.

AI Automated Intelligence

GDPR Powered by 🏗AI.DATALIFT

A fast and comprehensive solution for GDPR compliance

Why GDPR Powered by AI.DATALIFT?

Data cleansing ensures all data is kept or discarded based on its value to the organisation	100% cloud solution that efficiently analyses and manages terabytes and petabytes of data	Cost-effective, with no capital expenditure, and no need for on-premises hardware or software
Reduces cost and risk of fines and reputational damage	Built on Microsoft Azure to provide a truly scalable and secure platform	Improves data quality and organisational productivity
A library of proven best practice GDPR templates, process and procedures that can be rolled out across the organisation	Project management framework to organise all the tasks that need to be completed, decisions that need to be made, and people that need to be consulted	Empowers organisations to transition from legacy data silos to a centrally controlled and managed information platform

GDPR Powered by AI.DATALIFT helps organisations to achieve and demonstrate compliance to GDPR by 25th May 2018

Automated Intelligence provides information governance products and services to global enterprises to help them analyse, quantify and mitigate a variety of compliance risks, including GDPR.
